This document is a detailed India-specific HR policy draft based on the supplied template. Company-specific entitlements retained from the source are integrated below. 1. INTRODUCTION AND OBJECTIVES

NamasteSQL Private Limited (“Company”) recognises that employees are central to the Company’s performance, culture, customer service and long-term growth. This Human Resource Policy establishes a consistent framework for recruitment, employment, compensation, conduct, attendance, leave, performance, employee welfare, grievance handling, separation and other employment matters.

The policy is intended to provide employees and managers with clear expectations while giving the Human Resources function a consistent basis for administering employment practices. It is also intended to support fair treatment, professional conduct, equal opportunity, workplace safety and compliance with applicable Indian employment laws.

The policy is a framework rather than a substitute for individual employment contracts, statutory rules, government notifications, certified standing orders where applicable, or state-specific establishment requirements. This document is an HR policy draft and should be reviewed by the Company's HR/legal/compliance advisers before being adopted as a binding corporate policy, particularly for state-specific establishment rules, working hours, leave, wages, social security, POSH, maternity benefits, retrenchment/termination and tax treatment.
